Who? **The Employer Alliance for Affordable Health Care** is a grassroots organization with more than 1,500 members throughout New York State that represent more than 100,000 individuals. Our members include small business owners, Chambers of Commerce and individuals committed to keeping insurance costs affordable for all people.

What? The Employer Alliance believes that everyone is entitled to purchase basic, affordable health insurance. The New York State Legislature considers more than 100 health insurance mandates and every mandate passed will increase the cost of health insurance premiums, making it harder for who self pay to purchase their own health insurance coverage. Studies show that 30,000 New Yorkers will lose their health insurance coverage for every one percent increase in health insurance premiums.

When? A small group of business owners founded **The Employer Alliance for Affordable Health Care** in 1997 because their deep concern about inflationary health care costs and the state government's role in exacerbating the trend.

Where? Membership spans across New York State, from New York City, west to Niagara Falls, south to Binghamton, and north to Adams.

Why? **The Employer Alliance for Affordable Health Care** wants to prohibit all health insurance mandates. Why? Because currently, one out of four Americans has **no health care coverage** due to the cost added to health insurance premiums by legislative mandates.
